Dear Mr. Hoffman:

On October 2, 2008 I received your email communications entitled;

- *JMN Methane detects and JMN Landfill, Cleveland County North Carolina, Quarterly Methane Boundary Probe Monitoring.* Prepared for Republic Services. Prepared by Republic Services. September 29, 2008. Document ID No. 5942.

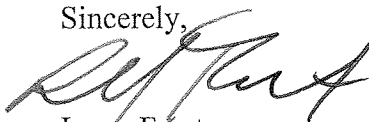

The communication proposed landfill gas corrective actions at the JMN Industrial Landfill in Cleveland County. On October 1, 2008 Mr. Ervin Lane, Solid Waste Section Hydrogeologist, approved the proposed action. The purpose of this letter is to notify you of the Permitting Branch's approval for the proposed action, with the following conditions;

- Republic Services shall notify the Regional Engineer, by email or telephone, prior to the commencement of the proposed construction at the landfill.
- All construction shall be completed in accordance with the referenced communication, above. Any changes to the proposed construction must be submitted to the Regional Engineer for approval prior to construction.
- The proposed increase in monitoring frequency shall be in accordance with the referenced communication. Any requests for changes to the proposed monitoring must be submitted to the Mr. Ervin Lane for approval prior to implementation. Copies of all monitoring results shall be forwarded to Mr. Lane, as well.
- Republic Services shall notify the Regional Engineer, by email or telephone, upon completion of the proposed construction at the landfill.

- Upon completion Republic Services shall submit to the Division "as built" drawings of the system constructed, please submit one printed copy and one electronic copy in pdf format.

Should you have any questions regarding this letter you may contact me at (828) 296-4704.

Sincerely,
